

# ABDULSHAKUR DAUDA OLADIPUPO

## FRONTEND ENGINEER

devshakur23@gmail.com | +234-812-937-8618 | [LinkedIn](#) | Github | Abuja, Nigeria (Open to relocation).

### PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building production web and mobile applications with React, Next.js, TypeScript, and Angular for web and React Native and expo for mobile. Experienced in frontend architecture, performance optimization, Api Integration, and automated testing, with hands-on experience delivering fintech and customer-facing products used by thousands of users.

### TECHNICAL SKILLS

- **FRONTEND FRAMEWORKS:** React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, WCAG
- **Architecture:** Reusable Components, Design Systems, Micro Frontends, CSR, SSR, Component-Based Architecture, Feature-Slice Architecture
- **APIs & DATA:** REST APIs, GraphQL, WebSockets, API Integration, Tanstackquery
- **Testing & Quality:** Jest, React Testing Library, Vitest, Cypress, Sentry, Chrome DevTools, React DevTools.
- **Performance & Security:** Web Performance, Code Splitting, Lazy Loading, Cross-Browser Compatibility, XSS, CSRF, CSP
- **Tools & Workflow:** Git, GitHub Actions, CI/CD, Storybook, Vite, Webpack, Docker, Postman, Agile/Scrum, Code Review

### PROFESSIONAL EXPERIENCE

#### Frontend Engineer, VegaIT

Oct 2025 – Jun 2026

- Modernized a customer-facing web application serving 3,000+ customers, collaborating with 6+ senior engineers and cross-functional teams to improve usability, maintainability, and alignment with modern frontend standards.
- Introduced server-side rendering with Next.js, across 3 web applications, reducing page-load times by 45% and improving the initial loading experience for users.
- Developed and maintained the Timesheet application using a Micro Frontend architecture, enabling independent feature development and deployment while using Storybook to document and standardize shared components.
- Diagnosed and resolved rendering and performance issues in the Timesheet application across [Chrome, Safari, Firefox, Edge], improving cross-browser consistency and application load performance.
- Migrated [Mentorship, profile, leadership-board, Admin pages] React components to Angular components for a customer-facing web application, preserving existing

functionality and design while aligning the page with the team's Angular codebase.

**Frontend Engineer(Contract), Finclusion Africa**

Dec 2025- April 2026

- Led Frontend development of Venpay, a fintech platform for international money transfers, Using Next.js, and TanstackQuery to build responsive customer-facing workflows and manage asynchronous application state.
- Integrated GraphQL APIs for data fetching between the UI and backend services managing loading, error, and cached states to provide reliable data-driven user experience.
- Implemented frontend security controls including XSS and CSRF protections, input sanitization, Content security policy (CSP), and secure token handling across customer-facing financial workflows.
- Introduced jest unit testing into the frontend development workflow, enabling earlier defect detection and reducing late-stage fixes before release.

**Frontend Developer, Vehanceit**

Sep 2023 – Oct 2025

- Led the development of Payloow, a fintech platform supporting card and data purchases, course transactions, and other customer financial workflows, delivering responsive and intuitive interfaces with React and React Native
- Contributed to the development of Karrypay, a money-transfer platform operated by EMAAR microfinance bank, supporting customer-facing interfaces for digital financial transactions.
- Translated product requirements into production-ready interfaces by collaborating with product stakeholders and cross-functional teams to deliver features across web and mobile platforms.
- Built reusable and accessible UI components using React and Ant Design, following WCAG 2.1 guidelines to improve usability and consistency across customer-facing products.

**EDUCATION**

Bachelor of Science in Mass Communication Bayero University Kano, Nigeria.

Sep 2018– July 2024

**CERTIFICATIONS**

- Frontend Engineering Certification – Devsnet(India)
- Crtified Mendix Intermediate Developer (Netherland)
- Certified React Developer– W3school

**Current Projects**

AgriSync – Building a marketplace connecting farmers, drivers, and buyers(Next.js, TypeScript) to streamline produce transport and enable direct farm-to-consumer sales.
